

LA Upper Pearl, Bogalusa, LA location:

Hours: 8am-12pm

We will launch from two public locations; Poole's Bluff & Richardson Landing. Poole's Bluff is our largest parking/boat launch and designated area for after-party hosted by Dockside Marine. We will have jambalaya and drinks provided for volunteers under the gazebo. We would like to get a group photo taken at this location after 12pm. We will also have a photographer on the river taking pictures during cleanup.

Boaters at Poole's Bluff will go north to Richardson Landing and sweep back south catching drains, creeks, lakes and sand bars.

Kayaks and pontoon boats will go south down the Pearl River Navigational Canal to Lock 3 and sweep back to Poole's Bluff.

NO ONE WILL GO BELOW THE SILL due to no accessibility (river too low for boaters) and hazards. We are working with both states and federal to clear up log/trash jam.

Boaters at Richardson Landing will go north to Hwy 10 bridge and sweep back south.

We have boaters that will launch from their private launches at the MS/LA state line that will go south toward the river bridge on HWY 10. (There are at least two areas with 6" of water over rock bars that will limit accessibility by boats)

Assigned boaters located at the Hwy 10 bridge will go north and sweep back toward Poole's Bluff.

This will cover our section of the river with the exception below the sill.

We will provide gloves, trash bags and grabbers to all volunteers at these locations. LA Wildlife and Fisheries agents will be on the river for safety and support. Washington Parish Government will pick up trash at the Hwy 10 river bridge, Richardson Landing and Poole's Bluff. The dumpster is located at Poole's Bluff.

We ask all volunteers to join us at Poole's Bluff around 12pm for photos, food and fun! Thank you all for volunteering your time to help with the clean-up!

If you have any questions or concerns please feel free to call Malinda 985-294-3895 or Gary Parker 985-516-4073.
